ASHUTOSH MOHANTY

AWS Certified Cloud Engineer | Azure Administrator Certified (AZ-104) | Linux Administration | DevOps
ashutoshmohanty005@gmail.com | +91-7205057933 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Associate (SAA-C03) and Microsoft Certified Azure Administrator Associate (AZ-104) with 2.2+ years of hands-on experience in AWS cloud infrastructure, Linux administration, and production operations. Skilled in EC2, EBS, S3, IAM, VPC, CloudWatch, CloudTrail, Auto Scaling, and Elastic Load Balancing, with working knowledge of networking fundamentals (TCP/IP, DNS, CIDR, routing). Experienced in incident analysis, root-cause investigation, infrastructure monitoring, and applying cloud operational and security best practices to maintain highly available, reliable cloud environments. Hands-on exposure to Git, Docker, CI/CD, Terraform, and Kubernetes through practical labs and production support.

CORE TECHNICAL SKILLS

Cloud Platforms: Amazon Web Services (AWS), Microsoft Azure (AZ-104 certified)

AWS Services: EC2, EBS, S3, IAM, VPC, CloudWatch, CloudTrail, Auto Scaling, Elastic Load Balancing (ELB), Route 53

Linux & Networking: Linux Administration, Troubleshooting, User Management, Process Management, TCP/IP, DNS, HTTP/HTTPS, CIDR, Routing

DevOps & Automation: Git, GitHub, GitHub Actions, CI/CD, Docker, Terraform (hands-on), Kubernetes (hands-on)

Infrastructure & Operations: Cloud Infrastructure Management, Monitoring, Incident Analysis, Root Cause Investigation, Provisioning, Patching, Configuration Management

Additional (Development): JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs, HTML, CSS

Tools: VS Code, Postman

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104) — Microsoft | View Credential

AWS Certified Solutions Architect – Associate (SAA-C03) — Amazon Web Services | View Credential

PROFESSIONAL EXPERIENCE

AWS Cloud Engineer — LTM **2024 – Present**

- Manage AWS cloud infrastructure across EC2, EBS, S3, IAM, and VPC in production environments, maintaining system availability and operational stability.
- Troubleshoot Linux, AWS, and infrastructure issues in production, diagnosing system-, process-, storage-, and network-level problems to restore services quickly.
- Investigate production incidents end-to-end through incident analysis, issue resolution, and root-cause investigation, collaborating with cross-functional teams.
- Monitor infrastructure health and performance using Amazon CloudWatch to identify anomalies and support proactive issue detection.
- Support cloud infrastructure operations including provisioning, patching, configuration changes, and routine maintenance across AWS environments.
- Apply AWS operational and security best practices, including IAM access control and VPC network configuration, to support secure and scalable infrastructure.
- Support DevOps workflows using Git, Docker-based environments, deployment workflows, and GitHub Actions CI/CD pipelines.

HANDS-ON CLOUD & DEVOPS PROJECTS

AWS Infrastructure Automation Lab (Terraform | AWS | VPC | EC2)

- Provisioned AWS networking and compute infrastructure using Terraform, including VPC, Security Groups, and EC2 instances.
- Practiced repeatable, version-controlled Infrastructure as Code deployment and teardown using Git.

Docker & Kubernetes Deployment Lab (Docker | Kubernetes)

- Containerized applications using Docker and deployed workloads on Kubernetes using Deployments, Pods, and Services.
- Practiced Kubernetes troubleshooting of pod- and workload-level issues.

DEVELOPMENT PROJECTS (MERN STACK)

Doctor Appointment Application — Live Demo

- Developed a full-stack MERN application with authentication, REST API integration, database connectivity, and responsive frontend functionality.

Job Seeking Platform — Live Demo

- Built a MERN-based job platform with secure authentication, REST API integration, database operations, and responsive UI.

EDUCATION

Master of Computer Applications (MCA) — Chandigarh University | 2024 – 2026

Bachelor of Computer Applications (BCA) — MITS School of Biotechnology | 2021 – 2024

LANGUAGES

English, Hindi, Odia
